

VERNON COLLEGE
VOCATIONAL NURSING
TUBERCULOSIS SCREENING ASSESSMENT

Vernon college students who have a history of positive reaction cannot take the PPD skin test for TB screening. In order to assess your need for further evaluation, please answer the following questions by circling “yes” or “no”, stating that you do or do not have that symptoms.

1. Productive cough	Yes	No
2. Persistent weight loss without dieting	Yes	No
3. Persistent low grade fever	Yes	No
4. Night sweats	Yes	No
5. Loss of appetite	Yes	No
6. Lethargy/Weakness	Yes	No
7. Coughing up blood	Yes	No
8. Exposure to active TB since last chest X-ray	Yes	No
9. Swollen glands in neck	Yes	No
10. Shortness of breath	Yes	No
11. Chest pain	Yes	No

- Any “yes” answer is indication for a chest X-ray unless there is a clear cause unrelated to tuberculosis.
