There is a chance that a disaster such as the ones envisioned by this plan may occur before or after regular College office hours, or on a holiday or a weekend when the organizational set-up of many departments is somehow out of the ordinary. While the structure of this plan remains precisely the same, its implementation may vary necessarily depending on, e.g. available resources and personnel until proper officials can be notified. Until that time, however, the individuals assuming the most responsibility will necessarily be those officials/individuals of highest rank who are available at the time. These individuals should seek to follow as nearly as possible the guidelines discussed in this plan, while simultaneously making an effort to notify superior officials of the situation so as to obtain verification or

advice on their actions. In any event, the President, Vice President of Instructional Services, Vice President of Student Services, and the Vice President of Administrative Services shall be informed of the situation.

GENERAL PLAN

Assumptions

The Vernon College President will assume the responsibilities as the Public Information Officer and shall coordinate all College communications including those with the media. Any required College notifications or cancellations should be approved by the President of Vernon College.

Each College employee is advised to not release information as it may cause a miscommunication during a crisis; an exception would be allowed when the safety of others would be clearly impacted if information was not immediately released. All employees shall refer all communications to their direct supervisor whenever possible and direct inquiries for information to the Vernon College President. Under no circumstances will any representative of the College reveal a victim's name.

The Crisis Management Team will initiate the crisis and/or communication plans of other College departments as required in the event of a crisis or emergency.
