Dates of meetings: 12/12 /2011

Accomplishments: Members reviewed and discussed the SCANS competencies, program objectives, and workplace competencies with no changes at this time. The recommendation of the members last year for retailing of products was incorporated into the program; the students are improving in this skill.

Recommendations: The members expressed concern about students in the program not having basic academic skills required to be successful in the occupations; they recommended a change in the procedures for admitting students to the program so that those applicants who are most likely to be successful be selected for admission. They recommended requiring a placement test in reading, writing, and math for all applicants to the program and using the scores in the procedures for program admission.

Membership suggestions: None
