Capstone Experiences The capstone experience is one method by which CTE	Χ
programs may verify entry-level workplace competencies.	
The capstone is a learning experience resulting in a	
consolidation of a student's educational experience and	
certified mastery of entry-level workplace competencies.	
The capstone experience must occur during the last	
semester of the student's educational program. Methods	
of providing a capstone experience include a final external	
learning experience that allows a student to apply broad	
knowledge of the profession; a comprehensive, discipline-	
specific examination prepared by the faculty of the	
program and administered at the conclusion of the	
program; a course involving simulation of the workplace,	
case studies, portfolios, and employment scenarios;	
and/or a discipline-specific special project, involving the	
integration of various teams of students performing	
activities to simulate the situations which may occur in the	
workplace.(SW)

IPEDS	Integrated Postsecondary Education Data System (IPEDS)		
	The Integrated Postsecondary Education Data System		
	(IPEDS), conducted by the NCES, began in 1986 and		
	involves annual institution-level data collections. All		
	postsecondary institutions that have a Program		
	Participation Agreement with the Office of Postsecondary		
	Education (OPE), U.S. Department of Education		
	(throughout IPEDS referred to as "Title IV") are required to		
	report data using a web-based data collection system.		
	IPEDS currently consists of the following components:		
	Institutional Characteristics (IC); 12-month Enrollment		
	(E12); Completions (C); Human Resources (HR) composed		
	of Employees by Assigned Position (EAP), Fall Staff (S), and		
	Salaries (SA); Fall Enrollment (EF); Graduation Rates (GRS);		
	Finance (F); and Student Financial Aid (SFA). (TH)		
IPEDS 12-Month	Institutions report an unduplicated head count for the	Х	
Enrollment Report	total number of students by gender, race/ethnicity, and		
	level (undergraduate, graduate, first-professional) enrolled		
	throughout the reporting period. Students included are		
	those enrolled in any courses leading to a degree or other		
	formal award, as well as those enrolled in courses that are		
	part of a terminal vocational or occupational program.		
	Institutions also report the total instructional activity for		
	the same 12-month period for both undergraduate and		
	graduate programs. Instructional activity data are		
	reported in units of contact hours (sometimes referred to		
IDEDC Completions	as clock hours) or credit hours. (TH)		
IPEDS Completions	This annual component of IPEDS collects number of	Х	
Report	degrees and other formal awards (certificates) conferred. These data are reported by level (associate's, bachelor's,		
	master's, doctor's, and first-professional), as well as by		
	length of program for some. Both are reported by		
	race/ethnicity and gender of recipient, and the field of		
	study, using the Classification of Instructional Programs		
	(CIP) code. Institutions report all degrees and other		
	awards conferred during an entire academic year, from		
	awaras comerca daring an entire academic year, nom		

	July 1 of one calendar year through June 30 of the		
105065 115 11 .	following year. (TH)		
IPEDS Fall Enrollment	This annual component of IPEDS collects data on the	Х	
Report	number of students enrolled in the fall at postsecondary		
	institutions. Students reported are those enrolled in		
	courses creditable toward a degree or other formal award;		
	students enrolled in courses that are part of a vocational		
	or occupational program, including those enrolled in off-		
	campus or extension centers; and high school students		
	taking regular college courses for credit. Institutions report		
	annually the number of full- and part-time students, by		
	gender, race/ethnicity, and level (undergraduate,		
	graduate, first-professional); the total number of		
	undergraduate entering students (first-time, full-and part-		
	time students, transfer-ins, and non-degree students); and		
	retention rates. In even-numbered years, data are		
	collected for state of residence of first-time students and		
	for the number of those students who graduated from		
	_		
	high school or received high school equivalent certificates		
IDEDC E' D	in the past 12 months. (TH)		
IPEDS Finance Report	This annual component of IPEDS collects data that	Х	
	describe the financial condition of postsecondary		
	education in the nation. These data are used to monitor		
	changes in postsecondary education finance and to		
	promote research involving institutional financial		
	resources and expenditures. Specific data elements		
	include such items as institutional revenues by source		
	(e.g., tuition and fees, government, private gifts);		
	institutional expenditures by function (e.g., instruction,		
	research, plant maintenance and operation); physical		
	plant assets and indebtedness; and endowment		
	investments. (TH)		
IPEDS Graduation	This annual component of IPEDS was added in 1997 to	Х	
Rates	help institutions satisfy the requirements of the Student		
	Right-to-Know legislation. Data are collected on the		
	number of students entering the institution as full-time,		
	first-time, degree/certificate-seeking undergraduate		
	students in a particular year (cohort), by race/ethnicity		
	and gender; the number completing their program within		
	150 percent of normal time to completion; the number		
	that transfer to other institutions if transfer is part of the		
IDEDC II	institution's mission. (TH)		
IPEDS Human	This component of IPEDS was formed in 2006 by	Х	
Resources Report	combining three previously separate components:		
	Employees by Assigned Position (EAP), Fall Staff (S), and		
	Salaries (SA). This was done to avoid (or at least reduce)		
	conflicting data which had occurred when collected		

			1
	separately. The information collected has remained		
	basically the same, and the frequency of collection		
	remains the same, i.e., the fall staff data is collected		
	biennially in odd-numbered years. (TH)		
IPEDS Institutional	This annual component is the core of the IPEDS system	Х	
Characteristics	and is required of all currently operating Title IV		
Report	postsecondary institutions in the United States and other		
·	areas. As the control file for the entire IPEDS system, IC		
	constitutes the sampling frame for all other NCES surveys		
	of postsecondary institutions. It also helps determine the		
	specific IPEDS screens that are shown to each institution.		
	This component collects the basic institutional data that		
	are necessary to sort and analyze not only the IC DATA,		
	but also all other IPEDS DATAs. IC data are collected for		
	the academic year, which generally extends from		
	September of one calendar year to June of the following		
	year. Specific data elements currently collected for each		
	institution include: institution name, address, telephone		
	number, control or affiliation, calendar system, levels of		
	degrees and awards offered, types of programs,		
	application information, student services, and		
	accreditation. The IC component also collects pricing		
	information including tuition and required fees, room and		
	board charges, books and supplies and other expenses for		
	release on College Navigator. (TH)		
IPEDS Key holder	The person designated by an official institutional	Х	
IPEDS Key Holder	representative to have in their possession the necessary	^

	UserID and password to gain access to the Integrated		
	Postsecondary Education Data System (IPEDS) data		
	collection system to complete the survey. The key holder		
	is responsible for entering data and locking the site by		
IDED CO. I	each survey completion date. (TH)		
IPEDS Student	This annual component of IPEDS began with a pilot test in	X	
Financial Aid Report	1999, and collected both institution price and student		
	financial aid data. The 2000-01 data collection included		
	questions regarding the total number of full-time first-		
	time degree/certificate-students receiving financial		
	assistance for the previous year, and the number of them		
	who received financial assistance by type of aid and the		
	average amount. The tuition and other price items are		
	now part of the Institutional Characteristics (IC)		
	component; the student financial aid questions remain		
	part of SFA. (TH)
