

ERP/SIS Update

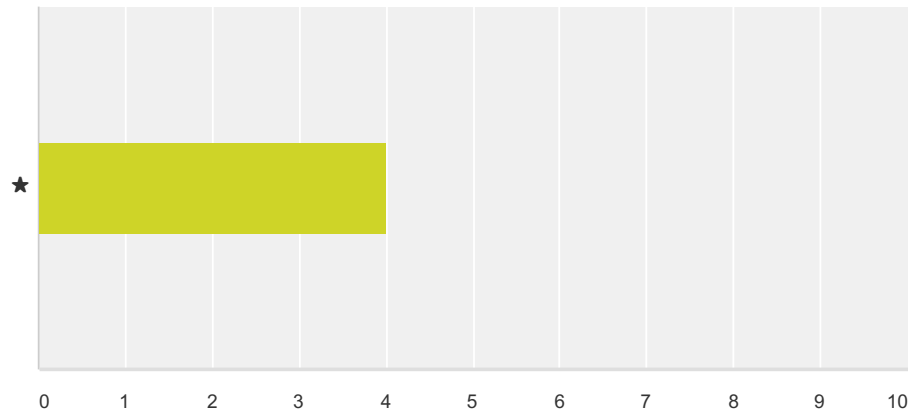

September 22, 2016

For the month of September, 2016, the ERP/SIS Coordinator has the following updates:

- A Workflow Process/System Process file is continuing to be refined and catalogued.
- Dynamics GP completed the installation of the system onto the servers. The test environment has been built, although it is not ready for manipulation. An onsite visit was held on September 13-14, 2016. This visit afforded the business office employees an opportunity to see the entire system from start to finish with a sample of employees.
- An ongoing survey of the employees who participated in the onsite visit has been conducted. The available results are included.
- U4SM is continuing to configure the base product for Vernon College's specific needs. U4SM is continuing to review the submitted workflows and processes.

Q1 On a scale of 1-5, I feel like my questions were addressed adequately.
