Institutional Effectiveness Plans	Plan developed by Vernon College components and departments to identify expected outcomes, assess the extent to which it achieves these outcomes, and provide evidence of improvement based on analysis of the results.
instrument	A tool used to collect data.
IPEDS	Integrated Postsecondary Education Data System (IPEDS) The Integrated Postsecondary Education Data System (IPEDS), conducted by the NCES, began in 1986 and involves annual institution-level data collections. All postsecondary institutions that have a Program Participation Agreement with the Office of Postsecondary Education (OPE), U.S. Department of Education (throughout IPEDS referred to as "Title IV") are required to report data using a web-based data collection system. IPEDS currently consists of the following components: Institutional Characteristics (IC); 12-month Enrollment (E12); Completions (C); Human Resources (HR) composed of Employees by Assigned Position (EAP), Fall Staff (S), and Salaries (SA); Fall Enrollment (EF); Graduation Rates (GRS); Finance (F); and Student Financial Aid (SFA).
IPEDS 12-Month Enrollment Report	Institutions report an unduplicated head count for the total number of students by gender, race/ethnicity, and level (undergraduate, graduate, first-professional) enrolled throughout the reporting period. Students included are those enrolled in any courses leading to a degree or other formal award, as well as those enrolled in courses that are part of a terminal vocational or occupational program. Institutions also report the total instructional activity for the same 12-month period for both undergraduate and graduate programs. Instructional activity data are reported in units of contact hours (sometimes referred to as clock hours) or credit hours.
IPEDS Completions Report	This annual component of IPEDS collects number of degrees and other formal awards (certificates) conferred. These data are reported by level (associate's, bachelor's, master's, doctor's, and first-professional), as well as by length of program for some. Both are reported by race/ethnicity and gender of recipient, and the field of study, using the Classification of Instructional Programs (CIP) code. Institutions report all degrees and other awards conferred during an entire academic year, from July 1 of one calendar year through June 30 of the following year.
IPEDS Academic Libraries Report	<b>The purpose of this annual Academic Libraries component of IPEDS is to collect information on library expenses, and library services for libraries in degree-granting postsecondary institutions.</b>
IPEDS Fall Enrollment Report	This annual component of IPEDS collects data on the number of students enrolled in the fall at postsecondary institutions. Students reported are those enrolled in courses creditable toward a degree or other formal award; students enrolled in courses that are part of a vocational or occupational program, including those enrolled in off-campus or extension centers; and high school students taking regular college courses for credit. Institutions report annually the number of full- and part-time students, by gender, race/ethnicity, and level (undergraduate, graduate, first-professional); the total number of undergraduate entering students (first-

# 2017-2018 Glossary

	time, full-and part-time students, transfer-ins, and non-degree students); and retention rates. In even-numbered years, data are collected for state of residence of first-time students and for the number of those students who graduated from high school or received high school equivalent certificates in the past 12 months.
IPEDS Finance Report	This annual component of IPEDS collects data that describe the financial condition of postsecondary education in the nation. These data are used to monitor changes in postsecondary education finance and to promote research involving institutional financial resources and expenditures. Specific data elements include such items as institutional revenues by source (e.g., tuition and fees, government, private gifts); institutional expenditures by function (e.g., instruction, research, plant maintenance and operation); physical plant assets and indebtedness; and endowment investments.
IPEDS Graduation Rates Report	This annual component of IPEDS was added in 1997 to help institutions satisfy the requirements of the Student Right-to-Know legislation. Data are collected on the number of students entering the institution as full-time, first-time, degree/certificate-seeking undergraduate students in a particular year (cohort), by race/ethnicity and gender; the number completing their program within 150 percent of normal time to completion; the number that transfer to other institutions if transfer is part of the institution's mission.
IPEDS Graduation Rates 200 Report	This annual GR200 component is a further extension of the traditional Graduation Rates (GR) component which carries forward 100% and 150% graduation rates data previously reported in the GR component and requests information on any additional completers and exclusions from the cohort between 151% and 200% of normal time for students to complete all requirements of the Higher Education Act as amended.
IPEDS Human Resources Report	This component of IPEDS was formed in 2006 by combining three previously separate components: Employees by Assigned Position (EAP), Fall Staff (S), and Salaries (SA). This was done to avoid (or at least reduce) conflicting data which had occurred when collected separately. The information collected has remained basically the same, and the frequency of collection remains the same, i.e., the fall staff data is collected biennially in odd-numbered years.
IPEDS Institutional Characteristics Report	This annual component is the core of the IPEDS system and is required of all currently operating Title IV postsecondary institutions in the United States and other areas. As the control file for the entire IPEDS system, IC constitutes the sampling frame for all other NCES surveys of postsecondary institutions. It also helps determine the specific IPEDS screens that are shown to each institution. This component collects the basic institutional data that are necessary to sort and analyze not only the IC DATA, but also all other IPEDS DATAs. IC data are collected for the academic year, which generally extends from September of one calendar year to June of the following year. Specific data elements currently collected for each institution include: institution name, address, telephone number, control or affiliation, calendar system, levels of degrees and

# 2017-2018 Glossary

	awards offered, types of programs, application information, student services, and accreditation. The IC component also collects pricing information including tuition and required fees, room and board charges, books and supplies and other expenses for release on College Navigator.
IPEDS Key Holder Registration Report	The person designated by an official institutional representative to have in their possession the necessary UserID and password to gain access to the Integrated Postsecondary Education Data System (IPEDS) data collection system to complete the survey. The key holder is responsible for entering data and locking the site by each survey completion date.
IPEDS Outcome Measures	<p>The OM component collects award and enrollment data from degree-granting institutions on four undergraduate cohorts at two points in time: six-year and eight-year.</p> <p>The four cohorts of degree/certificates-seeking undergraduates are:</p> <ul style="list-style-type: none"> <li>• Full-time, first-time entering (FTFT)</li> <li>• Part-time, first-time entering (PTFT)</li> <li>• Full-time, non-first-time entering (FTNFT)</li> </ul> <p>Part-time, non-first-time entering (PTNFT)</p>
IPEDS Student Financial Aid Survey	<ul style="list-style-type: none"> <li>• This annual component of IPEDS began with a pilot test in 1999, and collected both institution price and student financial aid data. The 2000-01 data collection included questions regarding the total number of full-time first-time degree/certificate-students receiving financial assistance for the previous year, and the number of them who received financial assistance by type of aid and the average amount. The tuition and other price items are now part of the Institutional Characteristics (IC) component; the student financial aid questions remain part of SFA. Formerly titled <a href="#">IPEDS Student Financial Aid Report</a>.</li> </ul>
Lab Evaluation Report	An evaluation conducted annually to ensure the adequacy of the facility, the equipment, and the supplies. A tool to make recommendations for improvement during the ensuing budget and planning year.
Legislative Budget Board Performance Measures Report	Also known as the LBB Report requires institutions to report on their performance using approved performance measurers.
Library Services Faculty Survey	The Faculty Survey of Library Services is administered in the Spring and used to determine faculty satisfaction with library resources and services. Results are then used for planning and improvement. Formerly titled <a href="#">Faculty Survey of Library Services</a> .
Library Services Student Survey	The Library Services Student Survey is conducted annually to determine student satisfaction with library resources and services. Results are then used for planning and improvement. Formerly titled <a href="#">Library Services Survey</a> .
Library Survey of Online Students	The Library Survey of Online Students replaced the <a href="#">Student Survey of Instruction</a> as the tool for assessing student satisfaction with library services and programs Fall 2009. Results are used for planning and improvement.
