- 306: Received permission to reconfigure classroom from two projectors to one.
Completion Goal: During Summer 2016.

WICHITA FALLS CENTURY CITY CAMPUS:

- BoardRm: Complete installation of Wireless Conference System **(Completed)**
- ITV 715: Hanging Microphone Replacement Project. Completion Goal: During Summer 2016.
- ITV 715: Replace Document Camera (ELMO) **(IN PROCESS)**
- ITV 717: Replace Graphics Computer (In Process) (Compatibility issue to display properly)
- ITV 717: Hanging Microphone Replacement Project. Completion Goal: During Summer 2016.

WICHITA FALLS SKILLS TRAINING CENTER:

- 400: Install additional (2) 60 Inch Televisions. **(Completed)**
- 418: Install wireless graphics system for HVAC Programs **(Completed)**

ONGOING PROJECTS:

- 313: Continue overseeing technical issues of Skype Room Project.
Note: Presently, no major issues being worked.
 - Bandwidth issue (slow internet speed at specific time campus wide) referred to RunBiz.
 - Loud audio noise in background during skype class (Appears to be resolved) referred to RunBiz.
- 313: Replaced Hanging Projector **(Completed)**

NOTES:

Region 9 PEXIP CONNECTION:

Continue working with Region 9 and RunBiz to make all Skype rooms and both Board Room operate over the State of Texas (PEXIP) system using the existing Region 9 connection. Using this connection means bandwidth is dedicated for the call which gives for a much better connection.

ITV REPLACEMENT SYSTEMS: (On Going)

Region 9 is providing specs and list of providers to Vernon College for replacement of the current Tandberg classroom systems.
