Use of data: *Due to the low participation rate of the board, the few number of changes that have been made since the program was implemented 25 years ago, and the fact that the program is no longer under the oversight of the Higher Education Coordinating Board, the Director will explore the possibility of eliminating the New Beginnings Advisory Board.*

How associated to Student Success? *The New Beginnings Program helps numerous students achieve their educational goal, but the link of the advisory board to student success is not clearly defined at this time.*
