Use of data:

This data is used to keep the Vernon College Residence Halls safe and well maintained. For most students this is their first time living alone and unsupervised by a guardian. We will use this data to make sure and emphasize a student's responsibilities as well as remind them of prohibited items in future housing meetings.

How associated to Student Success?

Providing safe and inviting on campus living helps students gain the "college experience" and helps keep them safe during their first experience of living independently.
