2016-2017

Title: Health Clinic Annual Report

Date of completion: September 20, 2016

Highlights of data:			
	Year 2015-2016	Year 2014-2015	Year 2013-2014
Total Visits	146	198	312 * Included flu shots which we no longer provide
Busiest Months	September, October, January, February	October, February, March, April	October, November, March

Use of data:

Continued tracking of health clinic visits helps justify the health clinic and continue future funding.

How associated to Student Success?

Students and staff can both function better when they are well. An onsite health clinic helps reduce absenteeism thus helping students stay in class.
