Report

Both

Highlights of data: The data reported includes the number of DWI Intervention and DWI Education classes held at both Vernon and Wichita Falls; and the number of students enrolling and completing these courses, as well as, the driver's license number or social security number and date of birth for each person completing.

The total number of classes and completers is as follows: There was 1 DWI class held in Vernon with 17 enrolling and 16 completing. In Wichita Falls there were 11 DWI classes held with 201 enrolling and 197 completing and 4 DWI Intervention classes held with 58 enrolling and 56 completing. All of these classes were held and completed during the 11-12 academic year.

Use of data: The DWI Annual report includes data for the Vernon College DWI Program to prove its effectiveness to the Texas Department of State Health Services. There are necessary minimums that must be met and they are reported at this time.

How associated to Student Success? The report measures the success of students in the DWI program.

Where the report can be found: In the filing cabinet in Anne Patterson's office (King Center Gym) in the DWI file drawer under Annual Reports.
