Highlights of data:

All rooms were inspected. The 4 major types of repairs consisted of repairing a non functioning heater, 2 broken air conditioners, and a leaking toilet. Every room had minor repairs such as dresser drawers off track, burned out light bulbs, loose door knobs, wobbly chairs, dresser drawers off track, and various cracks. Touch painting was done as needed.

Use of data:

Overall, resident hall repairs were all very minor. Minimal work should have the resident halls ready for occupants in August.
