Report

Both

Highlights of data: The CBM 002 report contains information about student readiness to be successful in freshman-level academic course work as defined by the Texas Success Initiative (TSI) statute. The reporting period for this report includes students enrolled for Fall, Fall I and Fall II of the 2012-2013 year. A total of 870 students had not met their TSI obligation or had it waived by the census date of the semester. By the end of the semester 689 students were shown as not meeting their obligation or having a waiver. Thus 181 students cleared their TSI obligation during the Fall semester and were able to enroll in College level coursework in all areas.

Use of data: Continue to monitor remedial course work to maintain and improve student progress toward readiness for College level course work.

How associated to Student Success? Prepares students to move toward the attainment of their educational goals by assisting in preparation for college level course work.

Where the report can be found: Admissions and Records Office
