Please note that my calculations are only estimates and the THECB provides the "official" calculations.

Use of data:

The CBM 116 Follow-Up allows institutions to provide the THECB with information on placement of graduates that they were not able to locate during initial matching with higher education enrollment and employment records. Report information is used by the THECB for funding as in Perkins Data Resources. Information is also used for program review decisions.

Two places the final report information will be found are:

<http://www.txhighereddata.org/reports/performance/ctcasalf/>
