Highlights of data:

Data is currently being gathered from CTE faculty members regarding curriculum upgrades, equipment, and professional development opportunities for 2015-16 Perkins Basic grant funding. Knowing what is needed by the faculty for their programs and recommended by advisory committees in order to stay current will help with writing the grant.

Use of data:

The data gathered will help with the budget and outcomes portion of writing the Perkins grant. THECB will release the 15-16 grant amount in the summer of 2015 so that I can then begin to write the grant.

How associated to Student Success? The purpose of the Perkins funds is to provide relevant occupational skills training for students to be successfully employed in their career fields. The funds are used to improve CTE instruction, upgrade curriculum, increase the capacity of the CTE programs, and improve access to occupational skills training.
