Attention Requesting Academy or Agency and Examining Practitioner: State Law and Commission Rules require that a medical examination and drug screen be performed by a physician licensed in Texas. TCOLE policy allows a physician's assistant or a nurse practitioner licensed in Texas and working under the supervision of a physician licensed in Texas to perform the medical examination and drug screen. TCOLE policy allows a Department of Transportation (DoT) Provider to perform the drug screen.

Requesting Academy or Agency: After the above sections are completed, submit this form by mail or email to the practitioner selected by the academy or agency to perform the medical examination, drug screen, or both. For a medical examination, also submit a description of job duties for the license or appointment sought to the practitioner.

Examining Practitioner: The medical examination process must consist of a review of the description of job duties for the license or appointment sought. Given the nature of law enforcement and the potential consequences to the agency, the individual, and the public, the purpose of the medical examination and drug screen is to determine whether the individual is physically sound and free from any defect which may adversely affect the performance of duties appropriate to the type of license or appointment sought and whether the individual shows traces of drug dependency or illegal drug use.
