Highlights of data:

The Graduation Rate component of the IPEDS survey (Integrated Postsecondary Education Data System 2010-11) collects data on the cohort of first-time, full-time degree/certificate-seeking undergraduates and tracks them to indicate completers within 100% and 150% of the normal program time to determine how many complete. Transfer students are excluded from the survey to ensure correct data.

The 2007 cohort contained 291 students. Of this total, 42 students completed a degree or certificate within 100% of time and 68 completed within 150% of time. A total of 76 from the cohort of students were excluded due to transfer.
