Assessment Activity

Report

Both

Highlights of data:

The Housing Inventory Report shows two fully stocked on campus Residence Halls consisting of a total of 74 rooms for student use. The report also includes surplus items including mattress covers and shower curtains.

Use of data:

The Dean of Student Services/Athletic Director as well as the Vernon College Housing Director review the detailed inventory report and recommend the replacement items to be ordered. These items are ordered and installed for Fall 2012 move –in that occurs in August 2012. The end of spring inventory also helps to determine if any items are removed without permission during Spring 2011 move-out or during the summer months. Replacement items this year will include 20 new mattresses, 4 new bedframes, and 4 chairs.

How associated to Student Success?

An appealing and safe housing option for out of town students and student athletes helps maintain morale and a sense of society on the Vernon Campus. By having pride in our facilities we can also expect students to take pride in their campus.
