Title: Professional Development Questioneer

Date of completion: September 2, 2011

Please circle: **Assessment Activity** **Report** **Both**

Highlights of data: Two surveys were given to faculty during this reporting cycle regarding Professional Development. The Quality Enhancement Resource Inventory (QERI) Survey and a Professional Development Follow up Survey.

68 Instructors (64 full time and 4 adjunct) were surveyed in May during faculty development on the Quality Enhancement Resource Inventory (QERI) – results indicated:

- what hardware/software the faculty were using in the classroom
- if they had training on the hardware/software
- continual usage in the future
- interest in the hardware/software if not already using

Quality Enhancement Resource Inventory (QERI) Survey

	1. Did you use this hardware/software this academic year? (Check all that apply)			2. Was it the property of...? (Choose one)			3. I plan to continue to use this hardware/software? (Y or N)		4. I am interested in using this hardware/software. (Y or N)

Comments

Below are some examples of the comments received from survey.

- Very productive and useful information and training.
- It was a great learning session
- Perhaps making staff development more department specific.
- We need more training on counseling stuff, WECM, financial aid, things that instructors now have to handle with students.
- More Blackboard sessions.
- I particularly enjoy the time that I get to work directly with my colleagues, brainstorm ideas, and hear their ideas concerning practical ideas for practices to promote student success in the classroom.
- Love how Faculty Development is running! Would like to see more "best practices" breakout sessions facilitated by OUR faculty! A LOT of great people doing great things in both traditional and online classroom environments!!! Would love to see that spotlighted!!!
- These sessions provide an important opportunity to catch up with what is going on with our colleagues, divisions, and the college as a whole. It is inspiring to feel the energy that comes from all of us working to provide the opportunities our students need and desire.

Use of data:

Plan/Design/Modify future Professional Development opportunities based on the information gathered from the surveys and observations.

How associated to Student Success?

The topics covered in the Profession Development sessions directly affect the student success by equipping faculty and staff with best practices/methodologies to engage and assist students in order to be successful in their college career at Vernon College.
